PERSONAL STATEMENT

A **technical and management** candidate with an adequate hands-on experience in the field of **Audio Postproduction and Sound Engineering**, looking to secure a challenging position in the **Film and TV Industry**. As I aspire to become a sound designer or a postproduction supervisor, I aim to begin my career in an enthusiastic environment as a runner, junior, assistant or associate – hone my skills by learning industry-standard tools and workflows whilst giving ability for mentors and team members which can significantly contribute success to the team and facility.

EDUCATION

Bachelor of Arts (Hons) in Sound Technology: (September 2023 – July 2026)

Liverpool Institute for Performing Arts, Liverpool, United Kingdom

- Expanded education and developed practical skills in the areas of Audio Production, Acoustics, Live Engineering and Audio Post-Production.
- Specialised in Audio Post-Production areas covering SFX Designing, Foley Recording and Editing, ADR, Location Recording, mixing in 7.1, 5.1, LtRt formats, Audio Conforming, Technical QC, EBU Standards and DCP Mastering.
- Hands on experience with industry equipment and software such as Pro Tools, Avid S6 Control Surface, ADR Master, Atmos Renderer, EdiLoad.
- Implemented said knowledge to portfolio projects: Producing a Comic Audiobook Experience with 5.1 and Stereo Mix and Re-Sound Designing a short clip on the animated feature film FLOW with 7.1 and 5.1 mix.
- Gained knowledge in Video Production using DaVinci Resolve and Adobe Premiere Pro, implementing techniques of lighting, cinematography, editing and direction for the course submission with a team effort.

positive

Bachelor of Science in Business Administration Management: (September 2016 – June 2020)

Rochester Institute of Technology, Dubai, United Arab Emirates

- Expanded education on the areas of Operational Analysis, Project and Strategic Management, Organizational Effectiveness, Communication, and Ad-Hoc Management.
- Implemented learning by interning for roles such as buying, operations that demonstrated my skills on analytics, data reporting, marketing and ad-hoc abilities and briefly working on a full-time role as a project management consultant demonstrating my skills on communication, process improvement and implementation and advising.

EXPERIENCE

Ajay Freelancer Events Management, Abu Dhabi, UAE: (October 2021 – September 2023)

Role: Sound Technician

- Engineered audio systems ensuring production requirements were met to a professional standard showing skills to provide attention to detail and high standards.
- Worked directly with clients throughout pre-production and setup phases to develop personalised sound mixes, determine technical requirements, and establish project design briefs.
- Assisted and shadowed sound supervisor on multiple productions and shows, supporting with radio mic deployment and monitoring showing skill of willingness to learn.
- Developed skills to achieve audio integrity throughout productions for multiple client organizations which helped me get recommended by employers to clients.
- Developed strong working knowledge of live PA systems, including system design, signal routing, and troubleshooting.

- Implemented system designs for a small-scale corporate events showing ability to execute, demonstrate learned skills and lead projects.

Digital Qatalyst, Dubai, UAE: (November 2021 – February 2022)

Role: Project Management Consultant

- Assessed operational challenges across client organisations and delivered tailored solutions aimed at improving organisational development.
- Prepared and presented reports and recommendations to clients, drawing on data analysis, organisations blueprint using Microsoft Excel and Power BI.
- Served as the primary point of contact for a portfolio of clients, providing timely and professional responses to enquiries.

Liverpool FC Stadium, Liverpool, UK:

Retail Staff

PORTFOLIO PROJECTS

Escape (Animated Short), Sound Designer & Mixer, LIPA

Mixed a short-animated film in Dolby Atmos, delivering a full spatial audio experience to professional broadcast standards.

Re-rendered the Atmos mix to 5.1 and LtRt (LoRo) fold-down formats, ensuring compatibility across all distribution platforms.

Achieved EBU R128 loudness target, then exported the final loudness-corrected stems to AS-11 DPP (HD) format with audio conforming to EBU R123 (16c) track order - meeting full broadcast delivery requirements.

Flow (Animated Feature), Sound Designer & Re-recording Mixer, LIPA

Delivered complete sound design, Foley recording and editing, and original music integration for the full-length animated feature Flow.

Mixed the film to 7.1.2 Dolby Atmos, creating an immersive spatial audio experience and folded down to a 5.1 surround version.

Superman Comic Book Audio Experience, Sound Designer & Mixer, LIPA

Conceived and produced a fully synchronised audio experience designed to accompany a Superman comic book, allowing readers to listen along page-by-page as they read.

Delivered complete sound design covering Music, ADR, Foley, and SFX, creating an immersive audio narrative that matched the visual pacing and tone of the comic.

Mixed the final experience to 5.1 surround with a fold-down stereo version, demonstrating versatility in both immersive and standard audio delivery formats.
